

The following is a comprehensive list of the companies that are participating in our GPO through Veira Medical (who is now partnered with MedAssets). Take a look – if the vendors that you currently use are not listed – then consider switching to another company. To date, we are seeing the greatest discounts with Henry Schein, Inc.

We have been in contact with our other companies asking them to match what we are seeing with Schein. We will be monitoring this closely in the third quarter.
